EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims

In claim 1: line 12 of page 13, "said" has been replaced with – each --, otherwise "said cam follower" recited has no antecedent basis; and to reflect the one-to-one relationship between the guide member (being a guide opening) and the cam follower, as suggested on lines 1 and 2 of claim 7. See also lines 5-13 of page 8 of the specification and Figs. 4 and 5, where a cam follower is illustrated to be attached to each slider which engages each of the three guide openings.

In claim 1: line 13 of page 13, "said" (first occurrence) has been replaced with – each – for a similar reason as above.

In claim 5: line 2, "groove has" has been replaced with – grooves have – to be consistent with the recitation in claims 3 and 4.

In claim 6: line 1 of page 14, "aid" has been changed to – said --, since this was clearly intended.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: All references cited teach lens barrels that comprise a combination of elements including, among

other components, a plurality of cam grooves having an identical form. The positions of the grooves are shifted in a rotational direction only, **but not in an optical-axis direction**. The present invention, on the other hand, teaches both characteristics of the grooves, i.e., the grooves are shifted in the rotational and axial directions. This difference alone would distinguish the present invention over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Loha Ben whose telephone number is (571) 272-2323. The examiner can normally be reached on Monday to Saturday, generally between 12:00 noon to 8:00 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Georgia y. Epps, can be reached on Monday to Friday, at (571) 272-2328. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
